

TRIEME

DIGITAL & GREEN SKILLS TOWARDS FUTURE
OF THE MOBILITY ECOSYSTEM

NEWSLETTER 5

OCTOBER 2026

Welcome to the fifth TRIEME newsletter! As TRIEME moves through its third year, we continue to turn skills intelligence into practical opportunities for learning, collaboration and action. From new training courses and resources for the mobility workforce to exchanges with industry, education providers and policymakers, the project is helping address the skills challenges shaping Europe's green and digital transition.

IN THIS ISSUE

Expert Voices

Anna Spechtenhauser and Kathrin Silber share insights into regional cooperation and the uptake of TRIEME results beyond the project.

Skills Revolution Conference

Key takeaways from a European gathering focused on the skills challenges facing the automotive-mobility ecosystem.

New Courses and the Skills Hub

Discover new learning opportunities and how the Skills Hub connects learners with relevant training.

Industry Insights

Six new briefs explore the workforce challenges of the mobility transition.

EXPERT VOICES

How can regional cooperation turn skills needs into practical action across Europe's automotive-mobility ecosystem? In this interview, **Anna Spechtenhauser**, Deputy Head of Office at the Stuttgart Region European Office, and **Kathrin Silber**, Project Lead at Stuttgart Region Economic Development Cooperation (WRS), share their insights into TRIREME's regional activities. As co-leaders of Work Package 5, they discuss progress so far, lessons learned and how the project's results can support up- and re-skilling initiatives and be sustained beyond the project's lifetime.

[Read the full interview to discover how TRIREME is connecting regions, industry and education to support the mobility transition.](#)

SKILLS (R)EVOLUTION CONFERENCE

The Skills (R)evolution in the Automotive-Mobility Ecosystem & Beyond conference, held on 20–21 April 2026 in Cluj-Napoca, brought together policymakers, industry leaders, education providers and European initiatives to discuss the skills challenges affecting Europe's competitiveness. Organised within the Automotive Skills Alliance framework, the event featured strong contributions from TRIREME.

NEW COURSES AND THE SKILLS HUB

New courses to support the mobility transition

TRIEME continues to expand its educational offer with new courses addressing key technological developments shaping the future of the automotive and mobility sectors. The courses are available through the TRIEME Skills Hub, helping learners explore relevant training opportunities.

Discover the newly released courses: [Course release 1](#) | [Course release 2](#)

The Skills Hub: opportunities for learners and training providers

The TRIEME Skills Hub helps learners find relevant training for their next step, whether they are students preparing for their careers, professionals looking to upskill or workers considering a career move. [Discover how the platform can support your learning journey.](#)

Skills Hub

The Skills Hub also offers universities, VET providers, academies, companies and EU-funded projects an opportunity to increase the visibility and accessibility of their existing, high-quality learning opportunities. By connecting training providers and making courses easier to discover, the platform encourages collaboration and helps maximise the impact of learning opportunities supporting the mobility transition. [Find out how training providers can benefit.](#)

SIX NEW BRIEFS EXPLORE THE WORKFORCE CHALLENGES OF THE MOBILITY TRANSITION

TRIEME has released six briefs based on its [Skills for the Mobility Transition: An Industry Perspective](#). Drawing on structured interviews with 60 industry stakeholders across the automotive and mobility value chain in 2025, the briefs explore workforce challenges ranging from building capabilities amid uncertainty and adapting to changing industrial geographies to reskilling within operating production systems and strengthening links between education and industry.

OTHER NEWS

TRIEME supports Hydrogen VET Forum 2026

The third edition of the Hydrogen VET Forum took place in May 2026 at the iconic Spa-Francorchamps circuit in Belgium, bringing together VET teachers, technical trainers and university professors for two days of learning, exchange and industry engagement focused on hydrogen in mobility. Supported by TRIEME, the event strengthened connections between education and industry around emerging skills needs.

Consortium meetings

In April and October 2026, TRIEME partners met in Cluj-Napoca and Milan to review progress, exchange expertise and coordinate the next steps towards the project's objectives. Held alongside the Skills (R)Evolution conference, the April meeting focused on project activities and collaboration, while the October meeting provided an opportunity to discuss regional roll-out, strengthen stakeholder engagement and explore concrete actions to support the uptake of TRIEME results.
