

Skills Transition Coordinator

THE ROLE

Coordinates strategies for reskilling and upskilling workers affected by digitalisation and the green transition. Ensures alignment between workforce development and emerging industry needs.

THE WORK

Identify skills gaps, design transition programmes, and monitor their effectiveness. Support career guidance and coordinate with training providers and employers. Promote inclusion and sustainability in workforce adaptation.

THE COMPETENCES

Understanding of labour market trends, training policies, and sustainability frameworks. Skills in coordination, data analysis, and stakeholder management. Empathy, adaptability, and the ability to translate strategic goals into action.
